1. Welcome

Welcome to the National Environmental Health Science & Protection Accreditation Council 2017 Annual Update Survey for Graduate Programs. [NOTE: Some updates have been made to the current survey, therefore it will look somewhat different from the 2016 survey]

This report is required by each accredited program. Before you begin, it may be helpful to utilize information from your previous year survey. A PDF copy of your previous year survey was sent to you via email.

Please Note: EHAC is in the process of updating our website. One of the key new features of the website will be a searchable database that provides faculty contact information, information concerning what EH courses are taught at EHAC accredited schools and will detail particular research interests of faculty at each program. We feel this database will be an extremely useful tool but it will only be useful if we have accurate and detailed information with which to populate the tool. PLEASE take care in providing EHAC with the most up to date and accurate information you can at present. This will hopefully be the last time you have to repetitively enter this information, as you will have the ability to update the database with your program changes in the future.

IMPORTANT: If you have an accredited undergraduate AND an accredited graduate program, please remember to submit a survey for both programs. A separate survey link to your graduate program has also been emailed to you.

ALL SURVEYS ARE DUE BY: March 22, 2017.

Please remember:

- The survey will automatically update and save your information each time you complete the required questions on a page and click the "next page" button found at the bottom of the page. This allows you to exit, enter and move through the survey via the same link at your convenience.
- This survey strictly deals with EHAC accredited programs. Please do not include any information on non-accredited programs.
- Please read the directions for each section thoroughly.

Failure to submit a complete and accurate version of this survey by the deadline may result in revocation of accreditation. Please visit:

http://www.ehacoffice.org/about/policies/3.05DuesAnnual%20ReportPolicy.pdf for more information on this policy.

If you have any questions call the EHAC Office at 206.522.5272 or email ehacinfo@aehap.org.

Thank you for your cooperation!
