- Risk assessment

Environmental Health Subfields

Prepared by:
Environmental Health Science Program
Department of Health Science & Human Ecology
California State University, San Bernardino
San Bernardino, CA
https://www.csusb.edu/health-science-human-ecology/degrees-and-programs/undergraduate/environmental-health-science-2

EHS Subfields

- Air Pollution
- Water Hygiene
- Food Sanitation
- Milk and Dairy Quality
- Solid & Hazardous Materials
- Vector Control
- Housing
- Institutional Health
- Recreational Health
- Medical Wastes
- Land Use
- Code Enforcement
- Occupational Health and Safety Emergency Response
- Bioterrorism
- Community Health Education

Air Quality Management

- Air quality surveillance
- Facility inspection
- Facility permitting
- Emissions regulation: industry & transportation
- Public education

Water Quality Management

- Water sampling
- Well inspection
- Wastewater
- Percolation test
- Disease investigation

Food Sanitation

- Permitted facility inspections
- Disease investigations
- Health education
- Plan checks

Milk & Dairy Quality

- Facility sanitation
- Milk sampling

Recreational Health

- Beach sanitation
- Community swimming pool inspections
- Ski area inspection
- Playground safety

Vector-Borne Disease Control

- Disease surveillance
- Vector control
- Permitted facility inspections (animal establishments, poultry, houses, etc.)
- Public education

Housing & Institutional Health

- Inspections: dwelling, organized camps, mobile home parks
- Code enforcement
